WINTER PARK MAYORS AND COMMISSIONERS

**OPPOSE
CHARTER
AMENDMENTS**

The City Commission is trying to circumvent the will of the voters by tying the hands of future commissions, allowing a two vote minority to block changes. They want to require a “super majority” vote to overturn their decisions and priorities. Further, the current City Commission subverted the normal Charter Amendment process by refusing to appoint a Charter Review Committee. Let’s protect the historic precedent of rule by majority that has been successful for over 100 years. Vote NO on the amendments to stop rule by the minority.

Vote ‘NO’ On All Six Charter Amendments Because They:

1

Subvert democracy
by giving a mere two commissioners the ability to stop future decisions of the City Commission.

2

Ignore 100+ years of successful precedent
in hopes of imposing their personal political agendas on future Winter Park residents. A majority has always been the rule in Winter Park to approve laws.

3

Were not considered or proposed by the normal Winter Park Charter Review Committee process, as is historically done to assure independent citizen review.

Vote ‘NO’ on Charter Amendments 1 – 6.
